PROBABLY BOUND FOR DAGUPAN.

This 's Aguinaldo's Latest "Capital," and It Is Hoped That the Poesent Concerted Operations Will Soon Put an End to Organized Insurrection.

Manlia, Nov. 6.-Last evening a fleet of transports and gunboats left Manila for the most important expedition of the autumn campaign. Its destination is supposed to be Bagupan or some other northern port. General Wheaton commands, with a brigade consisting of the Thirteenth infantry, the Thirtythird infantry, two guns of the Sixth artiflery and two gattings. A dispatch boat was sent ahead to arrange a ren dervous with the United States cruise Charleston and the other warships that

are patrolling the north coast of Luzon. The landing will be made under pan-Manila railroad toward Tariac c to prevent Aguinaldo's forces making another base farther north.

Dagupan and Apparri are the strong-

Since the beginning of hostilities it has been the unnnimous opinion of military experts here that Dagupan should be made a base of operatibut sufficient troops have heretofore been lacking. Should the concerted operations succeed organized insurrection, on a large scale, should be at an end early next spring, although guerrilla war-fare is likely to continue for a long

The problem is to move the troops about the country, to maintain transportation and to hold the territory gained.

No More Rheumatism.

WM. S. LEIB,

If the blood in sufficient quantity leaves the body because of a wound or hemorrhage of the langs the result is death.

Life depends on the blood because the blood carries to all parts of the body the natritive elements necessary to sustain it. What if they are supplianted by poisonous, effete matter and disease germs?

The first result is disease—partial death. The final result is the same as from loss of blood.

All disease is traceable to impurity or weakness of the blood and that is the reason the "Golden Medical Discovery" cures so many different diseases—it purifies and vitalizes the blood—makes it rich, red and healthy—fills it with nutriment for the starving nerves and insures.
